

THE FINAL SOLUTION FOR SEALING BUILDINGS

Very fast, efficient, economical and environmentally friendly.

CERTIFIED PROPERTIES

Even with ageing, the product properties are also maintained unchanged.

Water resistance under 3 bar pressure at Øi=22mm.

Same sound insulation as a wall without cavities.

Fire resistance better than EI - 240.

Radon gas tightness higher than required by standards (3,70 < R < 6,51).

Withstands more than 180 kg thrust without any shifting at \emptyset i=25mm.

- The RiveStop unit was mounted on the inside of the tank when the pressure was measured. See figure.
- Øi = Inner diameter of the opening to be sealed.
- Laboratory certificates available.
- Data sheet for RS21033PZ24 and RS21033PZ30

Very fast installation: sealing of up to 420 holes/hour

Insert into the opening to be sealed.

Rivet until the mandrel comes loose.

This information and, in particular, the recommendations regarding the application and use of the product are given in good faith, based on the current knowledge and experience of JABE, S.L. and RIVESTOP SYSTEM, S.L. on the products when they are correctly stored, managed and applied within their lifespan, and in normal situations. Pre-application of the product should read and understand the instructions for applying the product. JABE S.L.
