

SANITARY CONTAINER

Home (<https://module-t.com/>) / Sanitary Container

Sanitary containers (**wc** containers and **shower containers**) are sandwich panel modules used in all construction sites and especially in the living bases of companies operating in the *construction* and mining sectors.

Module-t supplies and installs toilet & shower containers all over the world.

Our wc & shower containers are set and their standard dimensions are 1.50×2.50, 2.00×2.50m, 4×2.50m, 6.00 × 2.50m and the outer height is 2.60 m. *Sanitary bungalows* (WC container and shower container) can be customized and sized optionally.

- **Structure:** Sanitary container with high galvanized and painted steel sandwich panel surface and frame.
- **Walls:** Sanitary container with internal and external walls with sandwich panels and insulated with stone wool up to 100 mm thickness, polyurethane or polystyrene foam.
- **Ceiling and Floor:** Polyurethane insulated ceiling (50mm). The base surface is of vinyl-coated fiber cement panel.
- **Quick-mount sanitary container:** A construction site sanitary container can be installed or dismantled within a few hours. All sandwich panels are cut and painted at the factory. The lower and upper chassis are delivered as pre-assembled at the factory.
- **Portable Container:** Module-t can be transported with lifting hooks (optional: specially reinforced sanitary container for frequent transport).
- **Flooring:** WC & Shower container with waterproof vinyl pvc or ceramic tile floor.
-
- **Delivery in package:** Module-T toilet container or shower container is delivered as a set to minimize transport costs. 8 sanitary containers of 15 m2 each are delivered in a special package with a 40-foot sea container. Sanitary equipment, plumbing and additional materials are delivered in packages out of sets.
- **Optional interior arrangement and materials:** Custom made WC container and shower container for construction site camps. Wide range of materials available for sanitary containers : Classic WC, Turkish style WC, stainless steel (inox) WC, WC for the disabled, ceramic urinal, stainless steel urinal, ceramic basin, stainless steel sink, under-basin cabinet, water heater, PVC and fiberglass septic tank.
- **Connection Set:** We can combine portable WC container with other prefabricated containers to create larger structures for the living spaces of your construction site. (For example, we can combine sanitary container with an office container)
- WC & shower portable containers are mounted on a lightweight construction structure: concrete block or beam.
